

Basic Recreational Saltwater Fishing Regulations

This is a brief summary of regulations governing the taking of saltwater species in Florida for personal use. It is not intended or designed to provide specific information on commercial harvesting of these species. The failure to include complete laws, rules, and regulations in this summary does not relieve persons from abiding by those laws, rules, or regulations. State waters extend to 3 nautical miles on the Atlantic and 9 nautical miles on the Gulf. Federal rules apply beyond state waters. For species that do not have an established bag limit, more than 100 pounds or 2 fish per person per day (whichever is greater), is considered commercial quantities. A saltwater products license and commercial vessel registration is required to harvest commercial quantities of unregulated species. **Issue Twenty Seven, July 2005**
